General Comments

From 0600-1200, I performed general SAS office duties. From 1200-1300, I met with Roman in regard to shim packing inspection work that I will be doing next week. From 1300-1500, I attended a SAS structures meeting in regard to load transfer up coming. The meeting was called by Roman. From 1500-1600, I worked on an excel spreadsheet to account for the shim heights including the beveled shims.
